

# SketchCop **FACETTE**

## Face Design System Software

**SketchCop Facette® Face Design System** is the only facial composite software yielding the quality product offered by that of a police sketch artist. **FREE** demo/full-trial version is available. Visit <http://www.SketchCop.com> to learn more.

### FEATURES

**Creates** high quality, gray-scale images using 256 shades.

**Database** of nearly 3,000 facial components allows users to create countless facial composites.

**Generates** preliminary composites to increase efficiency, based upon witness initial description.

**Image-merging** of facial components from other composites can be mixed together to create a new portrait.

**Thumbnail gallery** displays the image history so you can choose a previous version of the composite.

**Attention to detail** includes tilting and turning of individual facial components.

**Adobe-licensed tools:** pencil, brush, airbrush, smudge, stamp, dodge/burn, eraser, cut/paste and trapezoid distortion.

**Modification tools:** positioning, scaling, margin adjustment, contrasting, brightness, gamma control, rotation, horizontal flip, etc.

**Wanted Bulletins:** create and print within the program.

**Exportable facial composites** as a JPEG, or as a multi-layer image that can be opened in **Adobe® Photoshop®** or **Adobe® Photoshop® Elements**.

**Archiving capability** to an individual computer or a server.

**Network version** is available.

**Discounts** available for multiple licenses. **Ask us for a quote.**
