## Facial Composite System Software

**SketchCop® Facial Composite System** is a subscription-free software app created for law enforcement agencies seeking a software-driven solution for creating facial composites.

**SketchCop® Facial Composite System** is portable, affordable and easy to use. Our software app allows users to create stunningly accurate facial composites, even if they don't have artistic skills and without the help of a forensic artist.

Here are some examples of images creating using **SketchCop® Facial Composite System**.
